

GREENCELLS GROUP SUCCESSFULLY PARTICIPATES IN FLAGSHIP EPC PROJECT IN NIGERIA

Saarbrücken, 13th February 2023 – Greencells Group (Greencells), a global developer as well as EPC and O&M service provider for utility-scale solar power plants, has successfully participated in the construction of Nigeria’s largest grid-connected PV plant. Greencells was awarded the project as Greencells Eauxwell Consortium in May 2021 and acted as the international partner in the EPC consortium, implementing the project with the local partner Eauxwell Nigeria Limited.

The 10 MW Kano Solar Project was funded, planned, and constructed under the stewardship of the Nigeria Sovereign Investment Authority (NSIA) which had been appointed by the President of the Federal Republic of Nigeria to further the development of photovoltaic energy production in the country.

His Excellency President Muhammadu Buhari was present on site to inaugurate the plant, accompanied by various senior stakeholders including the Governor of Kano State, Abdullahi Ganduje, the Minister of Finance, Budget and National Planning, Mrs. Zainab Ahmed, and Farouk Gumel, Chairman of the NSIA Board of Directors. His Excellency expressed his satisfaction with the high-quality implementation of the project by the different project parties.

John Kirlin, Head of Development, Greencells Middle East and Africa: “We have no doubt that this project will be a catalyst for growth in the renewable energy sector. We commend the NSIA for their leadership and commitment to delivering on this important milestone achievement for Nigeria.”

ABOUT GREENCELLS GROUP:

Greencells Group is a global project developer and provider of EPC and O&M services for large-scale solar power plants. With a track record of over 2.6 GWp of installed capacity, the company is an experienced partner for the optimal planning, financing, implementation, and operation of solar parks. Greencells Group companies employ around 100 staff and several hundred skilled workers on their active construction sites. As one of the largest European providers of solar power plants, Greencells Group has already been successfully involved in the construction or planning of more than 150 photovoltaic plants in over 25 countries.
