

NICLAS WOLL JOINS GREENCELLS AS CHIEF FINANCIAL OFFICER

Saarbrücken, 11 March 2026 – The Greencells Group, one of Europe’s leading EPC service providers for utility-scale solar power plants, has appointed Niclas Woll as Chief Financial Officer (CFO).

With more than 20 years of international finance and management experience, Niclas Woll brings extensive expertise in accounting, tax, controlling, financial planning and organizational transformation. In his new role, he will oversee Greencells’ global finance organization and support the company’s continued growth across its European markets.

Prior to joining Greencells, Niclas Woll served as Director Finance at Caterpillar in Mannheim, where he was responsible for financial management and strategic planning. Before that, he held the position of Head of Accounting and Indirect Tax at W.R. Grace in Worms.

Earlier in his career, he worked as Auditor and Consultant at Ernst & Young in Frankfurt, advising companies on financial reporting, accounting standards and regulatory compliance.

Niclas Woll is a Certified German Public Auditor (Wirtschaftsprüfer) and holds a Master’s degree in Accounting, Tax and Controlling. He brings deep expertise in IFRS, HGB and US GAAP, as well as strong experience in financial planning & analysis, investment evaluation, cost controlling and the transformation and digitalization of finance organizations.

With Niclas Woll joining the executive team, Greencells adds extensive financial leadership and international industry experience to support the company’s next phase of growth across its European EPC and O&M activities.

ABOUT GREENCELLS GROUP:

The Greencells Group, headquartered in Saarbrücken | Germany, is an international EPC service provider specializing in the construction and maintenance of utility-scale solar power plants.

Founded in 2009, the company is considered a pioneer in the field of renewable energies. It is strongly committed to sustainability and the promotion of emission-free energy and is dedicated to a cleaner and greener future.

Greencells offers turnkey solutions for the construction of large-scale solar power plants, including planning, procurement, installation, commissioning, operation and maintenance.

With over 3.3 GW of installed capacity worldwide, a track record of 182 completed Projects worldwide and over 400 employees, the company is one of the largest solar energy groups in Europe.
